

You asked, we listened.

Introducing Serverless Integrations.

PAAY's JavaScript integration allows merchants to implement EMV 3DS in their checkout process in a matter of minutes.

- ✓ Merchants do not need to install anything on their server.
- ✓ Merchants simply copy & paste JavaScript onto their payment page.
- ✓ Merchants can use a sandbox to test with demo credit cards.
- ✓ All merchants receive **risk free** trial their first month.

Getting started has never been easier.

1. Board your merchants onto the PAAY dashboard.
2. Login to the PAAY dashboard for an overview of all your merchant transactions.

PAAY is a provider of EMV 3DS and certified by Visa, Mastercard, American Express, and Discover.
